General Safety Notes and Requirements

Vehicles of competitors/officials/marshals/helpers to be parked safely and without hindrance to other road users.

- All officials/marshals/helpers to wear fluorescent jackets or high visibility clothing.
- Marshals at the turn at Kirkwhelpington should not stand in/on the main road (A696) but be positioned in a place of safety on the minor road towards Kirkwhelpington (see image below).
- Marshals assisting the Timekeeper on the finish line should proceed either on foot or bicycle as there is no parking.
- Marshals are to be briefed as to the extent of their roles/duties prior to the event.
- A marshal's sole duty is to clearly indicate the route the rider is to follow before the rider reaches the marshal point (the rider may be unfamiliar with the course). This is done by either pointing out the direction of travel or holding a directional arrow/marker – marshals should not shout instruction or attempt to control the traffic in any way or interfere with its movement on the highway (Guidance Note 11).
- Whenever possible, marshals should be able to communicate with the organiser by mobile phone in case of accident/emergency

Rider Safety Notes

- No U-turns to be made in the vicinity of the timekeeper(s).
- No dismounting in the finishing area.
- Take care whilst riding through the lightly built-up area in Belsay. There are 20mph signals which illuminate during school opening/closing times.
- Take care at the turn at Kirkwhelpington – the U Turn is to be made in the minor road alongside the marshal.
- Road surface conditions may change depending on the season, weather, or condition of the road. It is the rider's responsibility to ride in such a manner that allows them to ride safely and with consideration to other road users at all times.
- Head down riding is prohibited and will result in disqualification.
- It is the responsibility of the rider to check the On-The-Day Risk Assessment to be aware of any extra hazards or changes they should be aware of.
- Every competitor **MUST** have, fixed to their machine, both a front and rear-facing, working light (either constant or flashing). These must be clearly visible (Regulation 14).
- Every rider **MUST** wear a helmet that conforms to current Safety Standards (Regulation 15), and it is their responsibility to ensure it fits correctly and is in good condition/undamaged.

NOTE TO THE ORGANISER: All of the above information should be included in the Start Sheet Information.
