After many months of will it won't it? We finally struck lucky and the A66 was clear of roadworks for the first time in months. Even the weather stayed fine for the event, though some of the times bely the rising breeze that was in evidence, one third of the finishers beating 4 hours? On an 'L' course? All but one of the entrants facing the time keeper was an excellent effort, and hopefully, on reflection of the times posted, this event may become better supported in the future. Congratulations to all the prizewinners, also to the several riders who recorded personal bests. A massive thank you to the helpers, the majority of whom are committee members of the Association and with such dedication we are in good hands for the future. Specifically Jamie Carson, Simon Myerscough, David Bisset, John Ward, who along with Peter Knott, Dave Brown and Peter Hey. Also thanks to the residents of Portinscale for the use of their village hall and their patience.

Regards Richard Taylor
