OPEN HILL CLIMB

SUNDAY 13TH OCTOBER 2019

THE 80TH ON YORKS HILL - GH/32 - 9.30AM

IN AID OF THE CHARTWELL CANCER TRUST

PROMOTED FOR AND ON BEHALF OF CYCLING TIME TRIALS UNDER THEIR RULES & REGULATIONS

HISTORY OF THE CATFORD CC HILL CLIMB

August 20th 1887 saw 24 starters tackle Westerham Hill, Kent (*then considered almost insurmountable*) in the first Catford CC Hill Climb. Not only was it a challenge to get to the top, but solid tyres on

the then unmade road made it a precarious ride, particular for 'Penny Farthings'. For this was in the days of the Old Ordinary or High Bicycle, when chain driven machines with two wheels of the same diameter were just making an appearance. The winner S. F. Edge of the Anerley B.C. (*later to join the Catford CC*) rode one of the new 'Safety' machines. Of the twelve competitors who got to the summit eight rode safeties, three were tricycles and only one 'Penny Farthing' made it, which came fourth. That was a 54" wheel machine and therefore had a 54in gear. The lowest permitted gear was 52 (presumably to stop the new chain driven bicycles from having an unfair advantage, as there was a limit on the smallest size wheel that you could use on an Ordinary, due to leg length). There was also a minimum weight limit of 35lbs for bicycles and 45lbs for tricycles (*who said the UCI were original!*).

Since then Westerham Hill has been the climb on 16 occasions and other hills used were Brasted (21); Toys (4); Waller (3); Titsey (1). But the real home of the Catford Hill Climb is Yorks Hill. First used in 1935 it has since been used 78 times. This quiet Kent country lane is transformed every October with hundreds of spectators lining each side of the road urging on the straining competitors with cries of '**Up, Up, Up**'. The scene is more reminiscent of the crowds on the 'cols' of the Tour de France but it is also uniquely a social occasion, an opportunity for an annual re-union. Being a sunken road, overhung by trees, in the autumn, '*leaves on the line*' cause the traction problems. In 1940 a carpet of wet leaves ensured that only four of the 43 starters succeeded in getting to the top. To minimize wheel slip, the hill is now swept before the event but in wet conditions this is still a problem for competitors. The trees caused a greater problem in 1987 when on the day before the event was due to be held the North Downs ridge bore the brunt of the infamous '*Hurricane*'. The following day the few Catford members who managed to get through the blocked roads found that the gully was completely filled with 100s of fallen trees, making racing impossible. The following year when these were cleared away the race went through a very bleak landscape with barren embankments each side. It is only now, some 30 years later that the new trees are maturing and the '*Hill*' is taking on its old aspect. One aspect which we hope won't return is the road surface.

Originally when the lane was first used it was unmade (*shades of the 'Hell of the North'!*). In 1937 the un-metalled surface defeated all but 16 of the 92 starters. After the '*Hurricane*' the road was churned up by tractors removing the fallen trees so it was resurfaced and is still in a reasonable condition. Yorks Hill is short and sharp ascent. Short compared with the Northern hill climbs, 707 yards. Very steep, two hard sections of **1 in 4**. It is a 2 minute lung-bursting aerobic effort. Best suited to the dynamic track rider or the road racer with a dynamic sprint (*we'd just love to see what new Tour de France star Julian Alaphilippe would do!*). The riders' all-out effort means that we need a marshal at the top to support the exhausted finishers and prevent them from falling off!!!!

Course and Details:

Ordinance Survey 498512. START in Yorks Hill, Goathurst Common at a point 46 yards south of the 'Accompanied Horses' sign, which in turn is south of the stables. Proceed up the hill in a northerly direction to FINISH 7 yards past TPI, just before the entrance to 'Hanging Bank' car park and 23 yards before the junction with the unclassified road between Ide Hill and Goathurst Common Ordinance Survey 497518. The Hill is 707 yards long and has an average gradient of 12.5% with two stretches of 25%.

Organiser:

The Hill Climb is promoted for and run under the rules and regulations of the 'Cycling Time Trials' by The Catford CC and organised by **Mr Le Anh Luong, 75 Oldstead Road, Bromley, Kent BR1 5RN. Telephone 07500 737473.**

Results:

Results will be published on the CTT, Spinwheels and VeloUK websites.

Numbers & Prizes:

From officials at Result Board in Car Park. (*Please remember to sign on*). Numbers can be exchanged for a drink after your climb at the refreshment bar. **Winning riders should report to the podium as soon as the event is finished.**

Helmets:

The wearing of helmets is compulsory for all junior riders during the race.

Thanks go to:

Catford CC gratefully acknowledge the assistance provided by Sevenoaks District Council, Kent Constabulary. The Catford Cycling Club would also like to thank all its members and the Sundridge/Ide Hill Parish Councillors for their support.

THE CHARTWELL CANCER TRUST

OUR NOMINATED CHARITY FOR TODAY

The Chartwell Cancer Trust, together with its associated charity, The CCT Tiger Ward supports two of our local Cancer & Leukaemia Wards. The Chartwell Unit in The Princess Royal University Hospital, Farnborough and The Tiger Children's Ward in The Queen Elizabeth Hospital, Woolwich. Founder and Trustee Michael Douglas started the Charity in 2005 after experiencing treatment in The Chartwell Unit and seeing how staff shortages affected patients undergoing treatment. Since this time we have been funding additional staff and currently support 2 Health Care Assistant positions and 1.5 Cancer Nurse Specialist positions. We also support families facing financial hardship during treatment and have just completed the fundraising to cover the cost of re-furbishing the Treatment Suite in The Chartwell Unit which includes air conditioning.

We also fully support The Bromley Childhood Cancer Support Group in all of their work with children in our area undergoing treatment for cancer or leukaemia. Our CCT Tiger Trust has provided a new kitchen for patients and staff in the Tiger Ward allowing them to make refreshments through the night without leaving their sick children to trek to the public facilities. The kitchen also has facilities to wash children's clothes if necessary. The Tiger Ward provides treatment for up to 80 young children from our area.

Our Charity is growing year by year and we are continually increasing the level of support we provide. We keep in touch with our fundraising partners and have made many good friends over the last few years. The Catford CC has become very good friends to the charity and we are very fortunate to have received significant support from them over many years. We would like to take this opportunity to extend our thanks to this famous Club and wish them continued success in all of their competitions and events.

DESIGNED TO BE THE ULTIMATE TOOL FOR HILL CLIMB EVENTS, NOT GENERAL ROAD RACING. THEY ARE EXTREMELY LIGHT

HUNT 

THE HILL CLIMB RECORD MEN'S RECORD HOLDER

PHIL MASON - SAN FAIRY ANN CC

Phil Mason broke the hill record exactly 36 years ago (1 min 47.6secs) and it's a measure of his great performance that this has stood for more than a third of a century. It's amazing that with all the advances that have been made during this time someone hasn't lowered it. However, this only demonstrates that equipment and techniques play little part in Hill Climbs. After all, the out-dated fixed wheel is still the preferred option for many riders. It's the power, guts and sheer determination that makes a hill climb champion and no one has come along yet to match Phil's.

The closest than any other male rider has come to beating the Catford CC Classic Hill Climb was Professional rider Dan Fleeman riding for 'Blue Sky' in 2007 with a staggering time of 1.48.2 - Bring on the riders this year!
