## *THANKS*

To all who entered, especially the 62 who rode.

It was hard to believe this was the first open time trial in South Wales since 15 months ago. In spite of vile conditions with heavy cold rain, they who stuck it out were rewarded with quick times - nearly half those with 50 mile LTS's did a PB, and many others were close. I apologise if this is the Welsh equivalent to what in other places is called a Float Day.

The organizer was relieved to note the risk of hypothermia encouraged most competitors to depart homewards with all speed, without need to invoke stern warnings from the Covid RA to disperse gatherings of socialising cyclists.

As a two-lap course, official split times come from the finish lay-by near the end of the first lap (24.275 miles), but there are also unofficial splits from our observer at the Mitchel Troy turn (12.08 and 37.831 miles). He didn't sync his watch with the TK's, but it should be accurate relative to itself. There are separate PDF files for Results & Prizes, Overall Finish times, split times at 24.275 miles, split times at Mitchell Troy, Team awards, VTTA Age-adjusted results, LTS Improvements, and a Scoreboard (results in order of starting).

**AND THANKS ESPECIALLY**
