Sarah	Cramoysan	Richmond CC	Female	Road	53	DNS

## DONATION

The donations that were received from the buckets positioned at the refreshment table raised £248.67. This when included with the moneys raised at the "Come & Try It" event earlier in the day, the "Come & Try It" event on the 17 October, plus a small contribution from the support team, made a total donation to the Butterwick Hospice of £520. This was our target, so an immense thank you to everyone who donated. This was especially achieved through Nuala, who prepared all the baking and served it on the day, whilst donating all the ingredients and her time.

## FINALLY:

With this event being a trial event to gauge interest in the promotion of a closed circuit 10mile VTTA National Championship, we await the decision of the VTTA NEC to decide whether they consider that events of this nature should be included in the 2022 championship event programme.

Teesside Cycling Time Trial District have promoted these 10mile time trials at Croft for the past 6 years and hopefully will continue to do so in the coming years. A summer series of 4 events held on Wednesday evenings (May to September) is followed by a 2 event Autumn series, which is held on Sundays during October. Riders participating come from as far as Lancashire, Tyneside, Yorkshire, Lincolnshire, as well as the Teesside Valley. Why not try and ride an event next year, you will be made most welcome.

Thank you for being part of this inaugural VTTA closed circuit championship, which for the first time was open to both VTTA members and to non-members.

If you enjoyed this veterans race and want more of it then the VTTA welcomes all new members; go over to [www.vtta.org.uk](http://www.vtta.org.uk) for more details. The full result of this championship along with a report and photographs will be published in the December edition of The Veteran, the VTTA members' magazine.

Looking forward to seeing all you next season, and please take care over the next few winter months, especially with us still living with the Covid 19 virus.
