

Stratford Cycling Club tried an early start this year for the open itt so as to avoid traffic, and it seems to have worked so a big thank you to the competitors for making the effort (some traveling a fair distance) and we are extremely grateful to the marshals who made it all possible. There were 43 entrants with 9 dns or dnf. Despite the favourable forecasts the weather managed to start drizzling at the start time but at least the wind was very light. The winning time of 20:00 took 48 seconds off last year's event on the same course.
