4. Race Protocol

We encourage you to bring along helpers for our events, however there are not a huge amount of vantage points on this course for spectating and be mindful that 'layby hopping' is not permitted. Anyone who is seen to have supporters 'layby hopping' along the course will be DQed.

Riders are not permitted to ride on course with a number on their back as a warm up. There are plenty of other roads nearby for warming up and turbos can be used in the car park. The road from HQ to the start is suitable for this.

The Time Keepers will be checking that riders a) have their number attached and, b) have both working rear and front lights. **Either of these are missing and you will not be permitted to race under CTT regulations.** There will be no "pusher offer" and you will have to do a standing start on your own. Rolling start will not be permitted.

Make it easy for the finish time keeper when you cross the line by shouting your number **as loud as you can. Do not approach the finish time keeper at any point for any reason.**

5. Race Results

Provisional race results will be available at the event using the QR code or the link below. We will email final results to competitors as soon as possible once the event has finished, and verification with the timekeepers can be done. Results will then be published to the CTT website as soon as possible. The QR code will be stuck around the HQ for you to use after you have finished your ride.

6. Refreshments

Teas and coffees will be available at the HQ for all riders and supporters.

7. Start List

Appendix A is the rider list with the number assigned to you. This is the number that must be collected from the HQ upon arrival. Please do not swap numbers: your emergency contact details are assigned to this number. If you are unable to attend, DO NOT swap your name with someone else. Riders found doing this will not be permitted to race, will be reported to the CTT and will not be accepted in future events.

8. Vehicles on course

Time trialling under CTT regulations is unsupported. Riders must not be followed, for any reason whilst on course. Any rider suspected of this will be disqualified and reported to the CTT. This practice and so called layby hopping is dangerous for other participants and a nuisance to traffic and will not be permitted under any circumstances.

9. Road Bike Event - Equipment Rules

All riders competing in the road bike event must conform to the below:

1. No aerobars, clip on aerobars or aero extensions can be used
2. Hands must be holding the handlebars at all times whilst racing (ie. not with forearms resting on the handlebar)
3. Wheels must have a minimum of 12 spokes each, and have a maximum rim depth of 90mm
4. Helmets must have no visor
5. Ears must not be covered by the helmet (Giro Aerohead helmets are not permitted)

10. Summary

We are incredibly pleased to see such strong support for our event in what is our first open event back in more 'normal times' after COVID disruptions in previous years. We love putting on events and always strive to make them better, so any feedback after the event is always appreciated. Have a great ride, go hard but go safe.

Thank you for your support!

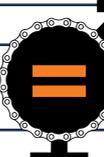

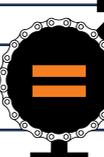

Henry Latimer - Race Director
