It is recommended that a working rear light, either flashing or constant, is fitted to the machine in a position visible to following road users and is on while the machine is in use.

On the approach to the turn roundabouts riders should check behind them and take the appropriate line to circle the roundabout safely.

When riding through narrow sections with central refuges riders should be aware of traffic approaching from behind.

After finishing, riders should proceed to the next break in the central reservation of the dual carriageway and, taking great care, re-join the west bound carriageway of the A4 and proceed back to the headquarters.
