## Notes on road bike category

The purpose of this category is to recognise competitors riding a drop bar bike, as might be used in mass-start road racing, with a separate prize category. Any competitors to whom the criteria do not apply either for their bike or clothing will remain eligible for all other prizes

While the list below is not exhaustive, it indicates some of the equipment which does and does not apply for this category. This list uses British Cycling and UCI technical regulations as a starting point but diverges in several ways - any questions arising can be directed to the organiser.

**All bikes will be assessed on the start-line by the organiser and their decision will be final.**

Anyone using any of the following equipment will not be eligible for the road bike prizes:

- Tri bars/ski-extensions
- A full disc rear wheel (including coverings/fairing on a spoked wheel)
- Any front or rear wheel with fewer than 12 spokes
- Wheels where the rim depth exceeds 65mm
- Overshoes and oversocks
- Socks extending above the mid-point between the ankle and knee
- Aerodynamic helmets with a “tail” (e.g. Kask Bambino, Giro Aerohead, Lazer Wasp)

Equipment that is allowed

- Skinsuits
- Fixed gear bicycles that conform to the above rules (while not legal in UCI mass start regulations, so long as a fixed gear bicycle confirms to the requirements set out in CTT regulations, and does not have any equipment listed in the list above)
